Approved for Release: Police Chief John Peters on behalf  
of Matthew Bronson, City Manager  
Contact: Greg Ray, Public Works Director/City Engineer  
Telephone: (805) 473-4520

## **CITY OF GROVER BEACH RELEASES ANNUAL WATER QUALITY REPORT**

GROVER BEACH – The 2016 Consumer Confidence Report (CCR) prepared by the Grover Beach Public Works Department is now available on the City website at:

[www.GroverBeach.org/DocumentCenter/View/81](http://www.GroverBeach.org/DocumentCenter/View/81)

The U.S. Environmental Protection Agency (EPA) under the Safe Drinking Water Act (SDWA) requires water systems to provide this annual water quality report to all of our consumers. The purpose of the CCR is to raise customer awareness on the quality of their drinking water, where their drinking water comes from, what it takes to deliver water to their homes, and the importance of protecting drinking water sources.

The City has previously mailed its customers a printed copy of the CCR to comply with the Safe Water Drinking Act. Recently, the California Department of Public Health expanded its interpretation of the SDWA to allow for electronic delivery of the annual report. In an effort to be more environmentally responsible, as well as minimize printing and mailing costs, the City of Grover Beach has made a digital copy available for viewing and downloading on the City's website. To receive a printed or email copy of the report, at no charge, please contact the Public Works Department at (805) 473-4520 or send an email to [publicworks@groverbeach.org](mailto:publicworks@groverbeach.org).

The City of Grover Beach cares about the quality of drinking water we provide and our Public Works Department employees work hard to provide all of our customers with drinking water that meets or exceeds the safety and quality standards set by the state and federal governments. One of the goals of the Grover Beach Public Works Department is to ensure the water system will continue to supply high quality and safe drinking water to all of our customers, now and in the future.
