West Grand Avenue Street Rehabilitation Project

GROVER BEACH, CA – On February 22, 2011, the Grover Beach City Council awarded the 2011 Street Rehabilitation Project to Souza Construction. This project is being completed as part of the City's short-term Local Street Rehabilitation Program.

The City is undertaking a number of "spot repairs" along portions of **West Grand Avenue, between 7th Street and Oak Park Boulevard**, which are in desperate need of attention. This project includes the removal and replacement of asphalt in selected areas, paving, sealing, and restriping. The project cost is estimated at \$178,000 with funding coming from a variety of sources.

Minor traffic delays due to travel lane closures and some parking restrictions are expected during the course of the construction, which is scheduled to begin on Monday, March 14 and end in late April. During construction every effort will be made to minimize the disruption to businesses and their patrons.

For additional information regarding the City's Short-term Local Street Rehabilitation Program, please visit the City's website at www.grover.org. If you have any questions or comments regarding this project or future rehabilitation projects, please contact Public Works Superintendent Mike Ford at (805) 473-4520 or by email to publicworks@grover.org.
