

Saving Energy: Make it Your Business

San Luis Obispo County Energy Watch, a joint project of San Luis Obispo County and participating municipalities, Pacific Gas and Electric Company and Southern California Gas Company, helps communities enjoy the financial and environmental benefits of saving energy through education and the installation of energy-efficient equipment. For more information about this and other programs and services available to help you save energy visit the PG&E website at www.pge.com.

Maximizing energy efficiency is important to every company's bottom line. The San Luis Obispo County ENERGY WATCH Small Business Program helps businesses realize immediate energy and long-term savings through the installation of energy-saving lighting and other measures.

Staples & Associates is working with Pacific Gas and Electric Company to reduce the amount of energy you use each month. We identify ways you can save energy...then we offer you the package of energy efficient lighting that best meets your needs. The Silver Package of benefits is available to you at no cost and includes:

- Compact Fluorescent Bulbs and Reflectors, including dimmable styles
- LED Exit Signs
- Vending Machine Lighting Controllers
- Refrigerator Gaskets and Strip Curtains

Your Return on Investment is Lower Energy Costs

Depending on your facility, you may want to enhance your energy savings with measures such as occupancy sensors; ceiling-mounted, hardwired fluorescent fixtures and tubes; and air conditioning tune-ups. These additional energy efficiency measures are installed for a very affordable package price. Our Energy Specialist will estimate how soon you'll recoup that price in lower energy costs.

It's Easy

Visit 1: An Energy Specialist from Staples & Associates will assess your facility, recommending lighting and other change-outs to reduce the amount of energy your business uses each month. If you qualify for the Silver Package, the Energy Specialist may install your CFL lighting, exit signs and other measures immediately.

Visit 2: If you agree to an enhanced energy-saving package (Gold, Platinum or Diamond), Staples & Associates will send a trained Installation Crew to do the work at a time that is convenient for your business.

Your Satisfaction is Our Business

We are committed to providing you with a high level of quality services and products. Staples & Associates or PG&E may request access to your business at a later date to inspect the work performed. Your cooperation helps ensure your complete satisfaction. And your Energy Specialist is always available to answer any questions you may have about the process.

To request a visit from a Staples & Associates Energy Specialist call: 1-888-324-0930.

California consumers are not obligated to purchase any full fee service or other service not funded by this Program. This Program is funded by California utility customers and administered by PG&E under the auspices of the California Public Utilities Commission.

Los consumidores en California no están obligados a comprar servicios completos o adicionales que no estén cubiertos bajo este Programa. Este Programa está financiado por los usuarios de servicios públicos en California bajo la jurisdicción de la Comisión de Servicios Públicos de California (CPUC.)

Program services and benefits are offered on a first-come, first-served basis until December 15, 2012 or until program funds are spent, whichever comes first.
