

Information about Measure K-14

Grover Beach Street Rehabilitation and Safety Improvement Bond

Dear Neighbor:

I am writing to inform you of Measure K-14, the Grover Beach Street Rehabilitation and Safety Improvement Bond in Grover Beach.

The City Council voted unanimously to place Measure K-14 on our November ballot for your consideration following expert studies of our roads and extensive resident input.

Grover Beach has nearly 45 miles of streets with 10 million square feet of pavement, but many of our streets and roads need repair, reconstruction or resurfacing. Earlier this year, an independent pavement management expert evaluated 71% of residential streets and 58% of major roads in Grover Beach as "Poor" or "Failed." Without funding for a major street rehabilitation program, the majority of our streets will fail in 6-8 years.

If adopted by voters, Measure K-14 helps us repair these roads, improve safety and maintain 9-1-1 emergency response times. State takeaways of \$5,000,000 over the past five years and the City's lean budget—the smallest in the County—mean that Grover Beach simply does not have the funding needed for these essential repairs.

Funding from Measure K-14 will help improve drivability and safety for drivers, bicyclists, and pedestrians.

Please visit www.grover.org for official documents and more information.

Sincerely,

BOB PERRAULT
City Manager

Information about Measure K-14

Grover Beach Street Rehabilitation and Safety Improvement Bond

What Does Measure K-14 Do?

If passed by voters, Measure K-14 funding helps us repair roads, improve safety, and maintain 9-1-1 emergency response times by:

- ✓ Repairing all the City's residential streets
- ✓ Improving safety for neighborhood crosswalks, drivers, pedestrians, and bicyclists
- ✓ Maintaining 9-1-1 emergency response times by making sure our first responder vehicles travel on properly maintained streets
- ✓ Preserving and maintaining your property values through these improvements

What Will Measure K-14 Cost?

If approved by voters, this \$48 million local Street Rehabilitation/Safety Bond Improvement Measure will cost property owners an average tax rate of approximately \$77 per \$100,000 of assessed - not market - property value per year. By law, all funds must be placed into the Street Construction Designated Fund and can only be used for the Street Rehabilitation and Repair Program.

Is Measure K-14 Fiscally Responsible?

Measure K-14 contains comprehensive Fiscal Accountability Safeguards. The Fund is subject to independent, annual audits and review by a Citizens Committee. Every dollar raised by Measure K-14 can only be used to improve local Grover Beach streets, and cannot be taken by Sacramento.
