BACKGROUND

The 2015-3 Street Rehabilitation and Repair Project was approved for construction in June of 2016. The construction cost of the project totaled \$752,622.73 and was funded from Measure K-14 bonds. The 2015-3 Project addressed light road maintenance of approximately 60 blocks of residential streets (map attached as Exhibit A to the Resolution) and included crack sealing, slurry seals, localized pavement repair, and pavement markings. The project, including punch list items, was completed on December 1, 2016.

As with all Public Works projects, the City has required a workmanship and material guaranty for a period of twelve (12) months from the date of acceptance for all the items of work. The guaranty will conform to the provisions in Section 2-1.12, "Material Guaranty," of the Standard Specifications.
