

CITIZEN OVERSIGHT COMMITTEE STAFF REPORT

TO: Honorable Chair & Committee Members **DATE:** December 15, 2021
FROM: Matthew Bronson, City Manager
PREPARED BY: Matthew Bronson, City Manager
SUBJECT: Citizen Oversight Committee Overview

RECOMMENDATION

Receive information from Mayor Lee and City Attorney Hale about the Council expectations and role of the Citizen Oversight Committee as defined by Council ordinances and resolutions.

BACKGROUND

This agenda item will include comments from Mayor Lee on behalf of the Council to welcome and thank members of the Citizen Oversight Committee (Committee) for their service to the community and share updates from the Council perspective. The Mayor periodically attends advisory body meetings to provide such comments to the respective commission or committee and has not been able to attend previous meetings of the Committee this fall.

In addition, the City Attorney will share information with the Committee with regards to the role of the Committee as defined by the Council since the inception of the original Measure X-06 Oversight Committee in 2006. This information was covered in the initial meeting of the current Committee on September 1, 2021 but staff believes that it may be helpful to the Committee to provide further information given questions that arose at the last meeting about the Committee's role and expectations. This information may be particularly useful in the Committee's review of the draft oversight report that will be reviewed at the December 15th Committee meeting.

For the Committee's reference, below is a list of the enabling ordinances and resolutions adopted by the Council pertaining to the current and previous Oversight Committees with information related to the oversight process highlighted:
