

## CITIZEN OVERSIGHT COMMITTEE STAFF REPORT

---

**TO:** Measure K-14 Citizen Oversight Committee    **DATE:** November 20, 2019

**FROM:** Matthew Bronson, City Manager

**PREPARED BY:** Greg Ray, Public Works Director/City Engineer  
Erin Wiggin, CIP Manager

**SUBJECT:** Review of Measure K-14 Projects to Date

---

### **RECOMMENDATION**

Receive update and provide comments on Measure K-funded street projects completed to date.

---

### **BACKGROUND**

The City is now in the fifth year of the multi-year Local Street Rehabilitation project funded by Measure K-14 which provides up to \$48 million in bond funds for repair of residential streets over the next 25 years. The first seven Measure K-14 funded projects are complete and have provided comprehensive maintenance and repair of approximately 175 City blocks which represents about 45% of all local City streets. Measure K funds have also been expended on localized repairs in severely damaged sections of streets throughout the city. Attachment 1 is a map showing street rehabilitation work that has been completed or is currently in design or construction using Measure K-14 bond funds.

Since the last Citizen Oversight Committee meeting, the City has completed 2295-8 (17 blocks) and 2295-6 (Newport Avenue) is underway.

Construction on CIP 2295-9 (S. 16<sup>th</sup> Street) will start next month. Once complete, nearly 15 miles of local streets will be repaired.

### **PUBLIC NOTIFICATION**

The agenda was posted in accordance with the Brown Act.
